

High Level Suites

Fit siphon, inlet valve, blanking plug and operating lever, which are packed inside cistern.

Fit wall brackets, assemble cistern onto brackets and fix to wall, (wall fixings not supplied).

Slide olive around top of flushpipe (flat side facing down) and push flushpipe up the tail of the siphon outlet then tighten coupling nut onto siphon tail to obtain a seal. Slide shroud onto pipe followed by the retaining 'O' ring.

Fit lower section of flushpipe to upper section and pan.

Use wall clip to hold in position.

Fit pan inlet connector to flushpipe and connect to pan.

Fix pan to floor.
